Experience

Growth Marketing Manager
DagensPS / Rlvnc Media — Stockholm — January 2024 - August 2026

Led a data-driven audience growth and monetisation strategy across Nordic publishing brands, integrating SEO/GEO, analytics, AdTech, experimentation and AI-enabled workflows to drive organic acquisition, advertising revenue and commercial performance. Aligned marketing, editorial and commercial initiatives with business objectives, reporting to the COO, CEO and CMO.

- Grew Google Discover traffic by 161% through Core Web Vitals improvements and AI-enabled workflows to audit, test and monitor deployments, scaling DagensPS to 1M+ weekly readers and contributing to its 2024 Swedish SEO Award.
- Improved consent performance (+12% opt-ins; -18% opt-outs), technical SEO, UX and advertising operations, contributing to 125% YoY advertising revenue growth.
- Used pre/post analysis, A/B tests, attribution and MMM to assess programmatic and native ads across social media, newsletters, affiliates and websites. Native ad tests improved delivery by 15%.
- Improved first-party tracking by standardising events in data layers and using server-side tracking, Google Analytics and Google Tag Manager. Used SQL to validate data and compare campaign performance.

Performance Marketing Consultant
HusmanHagberg — Stockholm — December 2022 - November 2023

Directed a data-driven, full-funnel performance marketing strategy integrating SEO/GEO, paid acquisition, CRO, CRM automation and experimentation to drive qualified lead generation, optimise customer acquisition costs and maximise marketing ROI.

- Reduced CAC by 20% while increasing qualified leads through Google Ads, Meta Ads, audience segmentation and continuous campaign optimisation.
- Built automated GA4/SQL dashboards in Looker Studio, consolidating ROAS, CAC, CPL, conversion rates and lead quality to support performance measurement and budget allocation.
- Optimised acquisition funnels through SEO-driven content, landing page improvements, A/B testing and CRM-based lead nurturing to strengthen conversion performance.

Marketing Manager
Life Fitness — International / Remote — December 2020 - November 2022

Drove the MENA market expansion and go-to-market strategy for a U.S. fitness brand, overseeing market development, brand positioning, multichannel acquisition and strategic partnerships while managing a $550K annual marketing budget and cross-functional teams.

- Negotiated and secured 30+ strategic partnerships and corporate agreements during COVID-19, expanding commercial opportunities and strengthening regional market presence.
- Directed integrated marketing initiatives across SEO, Google Ads, Meta Ads, PR and content marketing, aligning acquisition, brand awareness and business development objectives.
- Coordinated marketing, sales and operations teams, introducing automation and training initiatives to improve execution and digital capabilities.

Marketing Specialist
ILT Education — Stockholm — December 2019 - November 2020

Executed a dual-track B2B2C go-to-market strategy for the French market, combining Account-Based Marketing (ABM), brand awareness, content-driven SEO and multichannel demand generation to support acquisition and market adoption.

- Developed and optimised SEO-driven content strategies, integrating keyword research, content localisation and organic search visibility with broader brand awareness campaigns.
- Coordinated targeted LinkedIn ABM campaigns alongside Google and Meta campaigns, aligning paid media, content and audience engagement with acquisition objectives.
- Built automated HubSpot lifecycle journeys and CRM segmentation across onboarding, retention and reactivation, using A/B testing to optimise engagement and campaign messaging.

Market Insight Specialist
Concentrix — Paris — April 2014 - April 2019

Integrated competitive intelligence and Salesforce customer data into telecom benchmarking and forecasting workflows, applying product, interaction and lifecycle segmentation to support market entry, product launches and commercial decisions.

- Collected and transformed competitive intelligence, product benchmarks and Salesforce customer and sales data into advanced segments by product, customer interactions and lifecycle stage.
- Partnered with developers to deliver these datasets through a telecom benchmarking and forecasting tool, enabling leadership to inform product launches and sales, service and operations teams to assess customer needs and competing offers.
